This policy is intended to ensure that personal information is dealt with correctly and securely and in accordance with the UK General Data Protection Regulation (UK GDPR), and other related legislation. It will apply to information regardless of the way it is collected, used, recorded, stored, and destroyed, and irrespective of whether it is held in paper files or electronically. Definition

Personal information or data is defined as data which relates to a living individual who can be identified from that data, or other information held.

Data Protection Principles

The UK General Data Protection Regulation (UK GDPR) establishes seven enforceable principles that must be adhered to at all times:

3. Data minimisation: Personal data shall be adequate, relevant, and limited to what is necessary in relation to the purposes for which they are processed.
4. Accuracy: Personal data shall be accurate and, where necessary, kept up to date; every reasonable step must be taken to ensure inaccurate personal data is erased or rectified without delay.
5. Storage limitation: Personal data shall be kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the data is processed.

Subject Access Requests

The right of access, commonly referred to as subject access, gives individuals the right to obtain a copy of their personal data as well as other supplementary information. It helps individuals to understand how and why their data is being used and to check that it is being processed lawfully.

1. Under UK GDPR, any individual has the right to access their personal data
